National the Only Successful Favorite Out of the Six Events Decided To-Day.

PAPECIAL TO THE EVENING WORLD. SARATOGA RACE TRACK, Aug. 18.-A light fall of rain last night settled the annoying dust and the weather was cool and delightful here to-day.

The racing was resumed with a programme of six purse races, and there was a fairly good attendance, but the off days never draw so well as the regular days, when the stake horses start. The track was fast and the betting lively

enough to keep the twenty-five bookmakers FIBRT BACE.

the Centre of Interest in the Street To-Day.

The Stock Market Rather Weak and On the Decline.

Sugar Trustees to Form a Plan of Administration.

Exchange to-day was silver, and the certificates got up to \$1.20%, and thus the good work goes bravely on - specu-lators and silver mine owners reaping the benefit of the latest financial policy of the G. O. P. In the mean hauling in enormous amounts of money for excise and other duties, and keeping vast sums in its vaults to the detriment of the business interests of

the country.

The Treasury Department purchased that day. 40,000 ounces of silver at \$1,185, 50,000 at \$1, 195, and 200,000 at \$1, 1975, The stock market was generally weak and lower with declines ranging from 16 to 15s per cent. London sold some stocks but the main reason for the weakness is the scarcity

of loanable funds. Call loans to-day advanced to 15 and 20 per cent, and later rielded to 8 and 10.
In the final transactions stocks were it better request and a rally of 14 to 14 per

cent, ensued. The Central Trust Company is issuing its engraved receipts to-day for Sugar Trust certificates deposited under the reorganization agreement.

It is understood that quite a large amount of certificates have been deposited under the announcement made by the Sugar Trust committee some time ago. These deposits have been made subject to the pian of reor-ganization yet to be announced,

The agreement between the sugar trus-tees. Kidder, Peabody & Co. and the Central Trust Company provides that the committee, consisting of T. A. Havemeyer, F. O. Matthiessen, J. B. Thomas, J. E. Searles, Jr., J. A. Stursberg and Kidder, Penbody & Co., shall, with all convenient apeed, after the deposit of a majority of the Sugar Trust certificates, proceed, under the of the mode in which the property shall be administered and shall organize a corporation or association to carry out the plan

The agreement further provides that for the purposes contemplated the action of a majority of the members of the committee shall be binding unless such action is disapproved by Messrs. Kidder, Peabody & Co., or by the Central Trust Company, who thus practically have a veto power.

The certificates were weaker at the start and declined to 81%, but later rose to 82%. Buckeye oil was traded in for the first time at the Stock Exchange to-day, and brought 42% a 39% a 40% against 91% a % for Pennsylvania oil.

Money closed at 6 per cent. Total sales of listed stock were 122,000 shares, 18,000 barrels of Pennsylvania oil and 2,240,000 ounces of silver.
